It must be clearly understood that the percentages stated above can vary depending upon the perception of the BSLAMC, the intention being at all times to seek to protect the interests of the unit holders. Such changes in the investment pattern will be for short term and defensive considerations.

In the event of the any deviations from the asset allocation table above, the Fund Manager shall rebalance the portfolio within 30 days from the date of said deviation to bring it in line with the asset allocation pattern as indicated above. In case the rebalancing is not done within the specified period, justification for the same shall be provided to the Investment Committee and the reason for the same shall be recorded in writing. The Investment Committee shall then decide on the course of action.

## OTHER DISCLOSURES FOR CLOSE ENDED DEBT ORIENTED SCHEMES:

## (1) Credit Evaluation Policy

From credit evaluation perspective, each company is internally appraised by focusing on three parameters i.e.

1. Business Fundamental: It includes understanding of competitive position and competitor analysis on key parameters, strategies for growth, technical and marketing skill set, manufacturing process, productivity details and future expansion plans.

2. Financial Analysis: It includes analysis of Balance sheet, Profit and Loss account, and cash flow statement. Ratio analysis for the past years including quarterly / half yearly results analysis wherever available. Different set of ratios are analysed for corporates, banks, NBFCs etc.

3. Management Track record of the Investee company: It includes assessment of management quality, reviewing promoter background and track record, performance of group companies and possibility of group support, internal control systems, succession plans & repayment track record including that of other companies in the group.

Typically, an interaction with the company management is also sought prior to setting up of issuer limits. For structured obligations, in addition to the above, the evaluation also covers originator analysis, collateral analysis, structure analysis and embedded risk analysis.

A Detailed analysis is carried out to understand the business model of the investee company and its financial position before deciding to invest.

All Research is carried out by the internal team and approved as per our authorisation matrix.

## (2) Sectors in which the Scheme shall not invest

The scheme shall not invest in securities of Gem and jewellery and Airlines sector.

The scheme shall not have exposure in fixed income securities in excess of 25% of net assets in any sector as per sectoral classification as prescribed by AMFI. Provided that an additional exposure to financial services sector (over and above the limit of 25%) not exceeding 5% of the net assets of the scheme shall be allowed by way of increase in exposure to Housing Finance Companies (HFCs) only. Provided further that the additional exposure to such securities issued by HFCs are rated AA and above and these HFCs are registered with National Housing Bank (NHB) and the total investment / exposure in HFCs shall not exceed 25% of the net assets of the scheme.

Further, provided that the above sectoral limit is not applicable for:

- i. AAA rated instruments of PSU Banks and AAA rated instruments of Public Financial Institutions (PFIs).
- ii. CBLOs.
- iii. Bank Certificate of Deposits.
- iv. Government of India securities.
- v. Treasury Bills.
- vi. Short term deposits of scheduled commercial banks.

	son he no converse that the requirements of Stack Evaluation processory to maintain the lipting of units of
	can be no assurance that the requirements of Stock Exchange necessary to maintain the listing of units of scheme will continue to be met or will remain unchanged.
	• Further, the Scheme being a close ended scheme and listed on stock exchange, as per SEBI guidelines, no redemption / repurchase / switches of units will be allowed prior to maturity under the scheme. The investors wishing to redeem their units may do so through stock exchange mode.
	• The Units of the scheme may trade above or below their face value / NAV. The NAV of the scheme will fluctuate with changes in the market value of schemes holdings. The trading prices of units of the scheme will fluctuate in accordance with changes in their NAV as well as market supply and demand which may even lead the units to quote at significant premium or discount to NAV.
	• There is a possibility that the unitholders find it difficult or uneconomical to liquidate their investments at any particular time. As a result, investors in the scheme must be prepared to hold the units until the maturity under the Scheme.
	<ul> <li>Regulatory Risk: Any changes in trading regulations by the Stock Exchange or SEBI, inter alia, may also result in wider premium/ discount to the NAV of the Schemes. Although the Units are proposed to be listed on the Stock Exchange, the AMC and the Trustees will not be liable for any loss suffered by investors due to delay in listing of units of the Schemes on the Stock Exchange or due to connectivity problems with the depositories due to the occurrence of any event beyond their control.</li> </ul>
	<ul> <li>As the units of the scheme may be held in electronic (demat) mode through depositories, the records of the depository shall be final with respect to the number of units available to the credit of unitholder. Settlement of trades, redemption/dividend payment, in lieu of such units held in electronic (demat) form, by the Mutual Fund will depend upon the confirmations to be received from depository(ies) on which the Mutual Fund has no control.</li> </ul>
	Risk Factors associated with Close Ended Schemes:
	• A close ended Scheme endeavours to achieve the capital appreciation only at the scheduled maturity of the Scheme. However, there is no assurance that the said objective will be achieved at the scheduled maturity of the scheme and there is a risk that the capital invested may not be fully realisable upon maturity of the scheme.
	• The scheme being close ended in nature does not allow redemption during the tenor of the scheme. Redemptions shall happen only at the time of maturity of the scheme, and hence returns generated by the scheme may be affected if the underlying markets are at unfavourable level at the time of maturity of the scheme.
	• Investors who wish to exit/redeem before the scheduled maturity date may do so through the stock exchange mode. For the Units listed on the exchange, it is possible that the market price at which the Units are traded may be at a discount to the NAV of such Units. Hence, Unit Holders who sell their Units in a Scheme prior to maturity may not get the NAV returns.
Risk Control Strategies	Investments made by the scheme would be in accordance with the investment objectives of the scheme and provisions of SEBI (MF) Regulations. Since investing requires disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process. The risk control process involves reducing risks through portfolio diversification, taking care however not to dilute returns in the process. The AMC believes that this diversification would help achieve the desired level of consistency in returns. The AMC aims to identify securities, which offer superior levels of yield at lower levels of risks. With the aim of controlling risks, rigorous in-depth credit evaluation of the securities proposed to be invested in will be carried out by the investment team of the AMC.
	Credit Risk
	Every investment in Debt and Money Market Instruments of any issuer would be made in accordance with Credit policy as defined and established by AMC from time to time. The Credit Policy, which is reviewed and monitored on a regular basis by Investment Committee, inter alia, enumerates issuer selection process, the various parameters to be considered for setting up credit exposure limits and Credit authorisation matrix for such limits, credit monitoring process etc.
	The following parameters shall be considered for selection :
	<ul> <li>(i) The exposure to a counter party is based on the networth of the counterparty. The fund manager would do a risk assessment of the issuer before making the investments. Further, continuous monitoring of the networth of the company is done. The risk assessment by the fund manager includes the monitoring of the following:         <ol> <li>Capital Structure</li> <li>Debt Service coverage ratio</li> </ol> </li> </ul>
	III. Interest coverage
	IV. Profitability margin V. Current ratio
	(ii) The fund managers determine the sector to which the counter party relates. The fund manager assigns risk weightages to sectors and shall not invest in sectors which carry a high credit risk. The risk weightages are based upon various factors like the nature of products/services of the sector, current state and future outlook for the sector, subsidies provided to the sector and government regulations for the sector.
	<ul><li>(iii) The fund manager shall also check the track record of the company in terms of its financials and any defaults to its creditors.</li><li>(iv) The fund managers shall consider the track record of the sponsor/ parent of the counterparty. It includes the</li></ul>
	<ul> <li>financials of the sponsor/ parent company and whether the parent/sponsor has defaulted in the past.</li> <li>(v) The fund manager can also have a call with the Management of the company as a part of its research of the company.</li> </ul>
	(vi) The fund manager will also check for Credit Default Swaps spreads of the company in global market, if any available.
	The above parameters are dependent upon the information available at the time of due diligence. The fund manager shall endeavour to include all these parameters but investors should note that these parameters are

	indicative and ca	n change from time to time at	the discretion of the fund manager.

While the interim NAV will fluctuate in response to changes in interest rates, the final NAV will be more stable. To that extent the interest rate risk will be mitigated at the maturity of the scheme. <b>Teinvestment Risk</b> reinvestment risks will be limited to the extent of coupons received on debt instruments, which will be a very mall portion of the portfolio value. <b>Foncentration Risk</b> he Fund Manager shall endeavor to mitigate the risk by taking exposure to high rated instruments and locking a the point of investment to such issuance yields.

Listing	The scheme being offered through this Scheme Information Document is a close ended Scheme and the units offered under the Scheme will be listed on NSE and/or any other recognized stock exchange/s as may be decided by AMC from time to time within 5 (five) Business days from the date of allotment. Thus, the units of the Scheme will be listed and traded on the stock exchange/s and settled through depository mechanism as per the settlement cycle of the stock exchange/s. As the units will be listed on stock exchange/s, investors/ unitholders can buy / sell units on a continuous basis on the stock exchange/s during the trading hours like any other publicly traded stock at market prices. The minimum number of Units that can be bought or sold on the Exchange is 1 (one) unit. A separate ISIN (International Security Identification Number) will be allotted for each Plan/Option of the respective Scheme. Unitholders who wish to trade in units would be required to have a demat account. Although Units are to be listed on stock exchange/s, there can be no assurance that an active secondary market will develop or be maintained. The AMC and the Trustees will not be liable for delay in trading of Units on stock exchange/s due to the occurrence of any event beyond their control. As per SEBI circular SEBI/IMD/CIR No. 12/147132/08 dated December 11, 2008 the units of the scheme will be listed on National Stock Exchange of India Limited (NSE) for which the Trustees have obtained an in-principle approval from NSE vide letter NSE/LIST/54297 dated December 16, 2015.

- In case of demat accounts with nil balance and no transactions in securities and in mutual fund folios, the depository shall send account statement in terms of regulations applicable to the depositories.
- Consolidation shall be done on the basis of Permanent Account Number (PAN). In the event the folio / demat
  account has more than one registered holder, the first named Unit holder / Account holder shall receive the
  SCAS. For the purpose of SCAS, common investors across mutual funds / depositories shall be identified on
  the basis of PAN. Consolidation shall be based on the common sequence / order of investors in various folios /
  demat accounts across mutual funds / demat accounts across depository participants.
- In case of multiple accounts across two depositories, the depository with whom the demat account has been opened earlier will be the default depository which will consolidate the details across depositories and Mutual Fund investments and dispatch the SCAS to the unitholders.
- Unitholders whose folio(s)/demat account(s) are not updated with PAN shall not receive SCAS. Unitholders are therefore requested to ensure that their folio(s)/demat account(s) are updated with PAN.
- For Unitholders who have provided an e-mail address in KYC records, the SCAS will be sent by e-mail.
- The Unitholders may request for account statement for mutual fund units held in physical mode. In case of a specific request received from the Unitholders, account statement shall be provided to the unitholders within 5 business days from the receipt of such request.
- No account statements will be issued to unitholders opted to hold units in demat mode, since the statement of account furnished by depository participant periodically will contain the details of transactions.
- SCAS sent within the time frame mentioned above is provisional and is subject to realisation of payment instrument and/or verification of documents, including the application form

For more details, Investors are requested to refer the Scheme Information Document (SID) and Statement of Additional Information (SAI).

# Annual Report:

The scheme wise annual report or an abridged summary thereof shall be sent to all Unitholders not later than four months from the date of closure of the relevant accounting year and full annual report shall be available for inspection at the Head Office of the Mutual Fund and a copy shall be made available to the Unitholders on request on payment of nominal fees, if any.

The scheme wise annual report or an abridged summary thereof (the reports) shall be sent:
