**Investments in derivative instruments:** The scheme intends to use derivatives as permitted by RBI/SEBI for hedging interest-rate risk. SEBI has permitted all mutual funds to participate in derivatives trading subject to observance of guidelines issued by it in this regard. #### 1. Credit Evaluation Policy

The objective of the Credit Evaluation Policy is to adopt the best practices and highest standards in the investment decision making process for appraising fixed income and money market securities.

The policy covers the following aspects:

- The Credit Investment Process,
- The Credit Investment Strategy and
- The Credit Committee

#### a) The Credit Investment Process:

The investment process is stated hereunder:

##### The Macro View:

- The macro economic variables like economic growth, industrial output, money supply, credit growth, investment demand, revenue deficit, balance of payments.
- The Monetary policy stance, the level of administered rates, Central Bank reference rates and market initiatives.
- The global factors more in line with emerging market context including credit determination, global economic growth, commodity prices and investment preferences.

The above indicators determine some of the parameters like Liquidity, Inflation and money flows in the economy. These parameters drive the future interest rates and these are monitored on a regular basis. Both the external inputs from research wings of various intermediaries like Primary Dealers, Merchant Bankers etc. and the internal research by the Economist are considered to arrive at the Macro View.

##### Issuer Selection:

The credit analyst evaluates and prescribes specific issuers along with a limit, for taking the credit exposure. The credit evaluation is based on the process and the proprietary model approved the credit committee. The credit evaluation framework mainly considers the following aspects:

- Company details
- Company's position in the industry it operates
- History
- Management & Shareholdings
- Credit rating – external (with outlook if any)
- Credit rating – internal
- Financial Statement – History/forecast (including cash flow forecast)
- Financial ratios and Qualitative analysis
- Industry / Sector outlook based on their business cycles
- Regulatory environment and Public Policies

The credit analyst reviews each issuer limits on a regular basis, as and when the audited financials of the issuers are available. The fund management team also provides information on issuers, obtained through formal as well as informal sources and through market feedback to the credit analyst, which is factored in the credit evaluation process.

#### b) The Investment Strategy:

Investments in the fund portfolio will be diversified among a variety of sectors, issuer categories, credit profiles, maturity profiles and instruments. This is intended to take care of protection of capital, liquidity need to meet redemption and reducing impact cost while liquidating the portfolio. Protection of the portfolio's principal is of primary concern and hence investments may be largely restricted to securities which have high credit quality. In case ratings get downgraded, subsequent to our investments, to levels which are not in line with the investment strategy, efforts shall be made to liquidate those positions on a best efforts basis.

#### c) The Credit Committee

The AMC has constituted an Internal Credit Committee. The Managing Director, Head – Risk Management, Head – Fixed Income and Head - Equities are the members of the Committee. The Committee meets periodically to review the following aspects:

- Decide on whether to include a new entity to the credit / counterparty universe; Review the existing entities in the credit / counterparty universe

- Study the existing formats of risk reports and suggest improvements
- Review the deviations and overrides to the Fixed Income Risk Guidelines
- Review the impact on performance of funds owing to credit limits and norms.
- Such other matters delegated by the Board of AMC / Risk management Committee from time to time

#### 2) List of Sectors, the AMC would not be investing
