At times, liquidity of investments may be impaired. There is uncertainty of dividend distribution and risk of capital loss. Past performance of the Sponsor/Asset Management Company/Fund does not indicate the future performance. Investors in the Scheme are not being offered any guaranteed or indicated returns. Sundaram Select Micro Cap-Series XVI is only the name of the scheme and it does not in any manner indicate either quality of the scheme, its future prospects or returns.

Scheme-Specific Risk Factors

. Micro-cap stocks are generally illiquid in terms of trading volumes; investors should assume that illiquidity risks are higher in this Scheme than in a normally diversified fund. • This may result in higher impact costs. Impact costs are those costs that are incurred for acquiring and disposing off stocks. These are different from brokerage and custodian charges. The Scheme does not guarantee that impact cost will be minimized or eliminated. • The Scheme may invest up to 10 per cent of net assets in unlisted equity and equity-related instruments, which could affect the liquidity of the Scheme. • While micro cap companies may offer substantial opportunities for capital appreciation, they also at least commensurate risks. Historically, these companies have been more volatile in price than larger company securities, especially over the short term. Among the reasons for the greater price volatility are the less certain growth prospects of smaller companies, the lower degree of liquidity in the markets for such securities, lack of transparency and the greater sensitivity of smaller companies to changing economic conditions. • In addition, micro-cap companies may lack depth of management, be unable to generate funds necessary for growth or development, or be developing or marketing new products or services for which markets are not yet established and may never become established. They could also suffer from disadvantages such as outdated technology, lack of bargaining power with suppliers, low entry barriers and inadequate management depth. • Transparency/liquidity levels may not be on par with established, large companies. Corporate governance may be an issue with some companies. They may not be resilient enough to withstand shocks of business/economic cycles. • There are also risks specific to close ended schemes and listed securities. • The Units will not be redeemed prior to maturity and liquidity will be only by selling the units in demat form on the National Stock Exchange. Trading on the Stock Exchanges in which the Units of the Scheme are listed may be closed/ suspended by the Stock Exchange authorities under special circumstances (due to market volatility/circuit filter rules/breakdown of communication/network systems/SEBI Directive, to name a few). • Though the Units will be listed, there can be no assurance that there will be an active secondary market in the Units of the Scheme. • The Scheme may use derivative instruments for the purpose of hedging and portfolio balancing, as permitted under the Regulations. Usage of derivatives will expose the scheme to certain risks inherent to such derivatives. Change in Government policy in general and changes in tax benefits applicable to mutual funds may impact the returns to Investors

Central KYC

Central KYC Registry is a centralized repository of KYC records of customers in the financial sector with uniform KYC norms and inter-usability of the KYC records across the sector with an objective to reduce the burden of producing KYC documents and getting those verified every time when the customer creates a new relationship with a financial entity. KYC means the due diligence procedure prescribed by the Regulator for identifying and verifying the proof of address, proof of identity and compliance with rules regulations, guidelines and circulars issued by the Regulators or Statutory Authorities under the Prevention of Money Laundering Act, 2002.

The Central Govt. vide notification dt. Nov, 26, 2015 has authorised Central Registry of Securitisation Asset Reconstruction and Security Interest of India (CERSAI) to act as and to perform the functions of the CKYC Registry including receiving, storing, safeguarding and retrieving the KYC records in digital form of a Client. A 14 digit CKYC identification Number (KIN) would be issued as identifier of

As per PMLA (Maintenance of Records) Amendment rules, 2015, Rule 9(IA), every reporting entity shall within three days after the commencement of an account based relationship with an individual, file the electronic copy of the client's KYC records with the Central KYC Registry. Institutions need to upload the common KYC template along with the scanned copy of the certified supporting documents (Pol/PoA), cropped signature and photograph. SEBI vide its circular dated November 10, 2016 has advised all mutual funds to upload the KYC records of all existing customers into the CKYC database. Since the records are stored digitally, it helps intuitions de-duplicate data so that they don't need to do KYC of customers multiple times. It helps institutions find out if the client is KYC compliant based on Aadhaar, PAN and other identity proofs. If the KYC details are updated on this platform by one entity, all other institutions get a real time update. Thus, the platform helps firms cut down costs substantially by avoiding multiplicity of registration and data upkeep.

Please note that PAN is mandatory for investing in MF's (Except Micro KYC and other exempted scenarios). If CKYC is done without submission of PAN, then he/she will have to submit a duly selfcertified copy of the PAN card alongwith KIN.

First time investing Financial Sector (New investor) New to KRA-KYC: while on boarding investors who are new to the MF & do not have KYC registered as per existing KRA norms, such investors should fill up CKYC form (attached). This new KYC form is in line with CKYC form guidelines and requirements and would help to capture all information needed for CKYC as well mandatory requirements for MF. Investors should submit the duly filled form along with supporting documents, particularly, self-certified copy of the PAN Card as a mandatory identity proof. If prospective investor submits old KRA KYC form, which does not have all information needed for registration with CKYC, such customer should either submit the information in the supplementary CKYC form or fill the CKYC

Investors who have obtained the KIN through any other financial intermediary, shall provide the 14
