INVESTMENT STRATEGY:

The Fund would identify companies for investment, based on the following criteria amongst others:

1. Sound Management
2. Good track record of the company
3. Potential for future growth
4. Industry economic scenario
5. Strong Cashflows

Besides, it is expected that a portion of the funds will also be invested in initial offerings and other primary market offerings. Risk will be managed through adequate diversification by spreading investments over a wide range of companies.

The portfolio shall be structured so as to manage risk at acceptable levels. This shall be done

through various measures including:

- 1. Broad diversification of portfolio
- 2. Ongoing review of relevant market, industry, sector and economic parameters
- 3. Investing in companies which have been researched

RNAM may, from time to time, review and modify the Scheme's investment strategy if such changes are considered to be in the best interests of the unit holders and if market conditions warrant it.

RISK MITIGATION FACTOR / RISK CONTROL:

Since investing requires disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process. The risk control process involves reducing risks through portfolio diversification, taking care however not to dilute returns in the process.

The AMC believes that this diversification would help achieve the desired level of consistency in returns. The AMC aims to identify securities, which offer superior levels of yield at lower levels of risks. With the aim of controlling risks, rigorous in depth credit evaluation of the securities proposed to be invested in will be carried out by the investment team of the AMC. The Scheme may also use various derivatives and hedging products from time to time, as would be available and permitted by RBI and SEBI, in an attempt to protect the value of the portfolio and enhance Unit holders' interest

RISK PROFILE OF THE SCHEME:

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:

Scheme specific Risk: The scheme carries risk associated with investing in domestic & foreign equities, fixed income, derivatives and foreign securities, Bonds, securities Lending, Overseas Investments, risk of fluctuation in exchange rate, Listing of units, repo in corporate bonds. Trading volumes and settlement periods may restrict liquidity in equity and debt investments.

Risk related to close ended schemes:

The tenor of the scheme shall be 1153 days from the date of allotment. The investor invests in such schemes with an expectation of generating wealth over a relatively longer term. This time period also enables the fund manager to invest a certain portion of the funds with a longer horizon (increasing the range of investment opportunities available to the Scheme). However, this horizon being farther into the future, also tends to be more unpredictable. Moreover, if liquidity in the units in the secondary market is limited, investors would be compelled to stay invested in the Scheme over a longer period of time and would not be able to exit irrespective of the performance of the fund. Where the investor holds the units till maturity, the NAV of the scheme at the time of maturity would determine the amount of returns that the investor makes.

Investment in Debt is subject to price, credit, and interest rate risk. The NAV of the Scheme may be affected, inter alia, by changes in currency, market conditions, interest rates, trading volumes, settlement periods and transfer procedures. The NAV may also be subject to risk associated with investment in derivatives, and foreign securities as may be permissible by the Scheme Information Document. Please refer Scheme Information Document for details.

However, no Investment Management fees would be charged on RNAM's investment in the Scheme. The Trustee Company, shall be entitled to receive a sum computed @ 0.05% of the Unit Capital of all the Schemes of RMF on 1st April each year or a sum of Rs.5,00,000/- whichever is lower or such other sum as may be agreed from time to time in accordance with the SEBI Regulations or any other authority, from time to time.

The above expenses are fungible within the overall maximum limit prescribed under SEBI (Mutual Funds) Regulations, 1996, which means there will be no internal sub-limits on expenses and AMC is free to allocate them within the overall TER

The total expenses of the scheme including the investment management and advisory fee shall not exceed the limits stated in Regulation 52(6) which are as follows:

(i) On the first Rs. 100 crore of the daily net assets 2.50%;

(ii) On the next Rs. 300 crore of the daily net assets 2.25%;

(iii) On the next Rs. 300 crore of the daily net assets 2.00%;

(iv) On the balance of the assets 1.75%;

In addition to the limits specified in regulation 52(6), the following costs or expenses may be charged to the scheme as per new sub regulation 6A, namely-

(a) Brokerage and Transaction costs incurred for the execution of trades may be capitalized to the extent of 0.12 percent of the value of trades in case of cash market transactions and 0.05 percent of the value of trades in case of derivatives transactions. Any payment towards brokerage and transaction costs incurred for the execution of trades, over and above the said 0.12 percent and 0.05 percent for cash market transactions and derivatives transactions respectively may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 of the SEBI (Mutual Funds) Regulations, 1996. Any expenditure in excess of the said prescribed limit (including brokerage and transaction costs, if any) shall be borne by the AMC or by the Trustee or Sponsors;

(b) Expenses not exceeding 0.30 per cent of daily net assets, if the new inflows from such cities as specified by the Board from time to time are at least -

(i) 30 per cent of gross new inflows in the scheme; or

(ii) 15 per cent of the average assets under management (year to date) of the scheme, whichever is higher:

Provided that if inflows from such cities is less than the higher of sub-clause (i) or sub-clause (ii), such expenses on daily net assets of the scheme shall be charged on proportionate basis:

Provided further that expenses charged under this clause shall be utilized for distribution expenses incurred for bringing inflows from such cities

Provided further that amount incurred as expense on account of inflows from such cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment;

The Fund will strive to reduce the level of these expenses so as to keep them well within the maximum limits allowed by SEBI.

Expenses on an ongoing basis will not exceed the following percentage of the daily net assets or such maximum limits as may be specified by SEBI Regulations from time to time.

The recurring expenses incurred in excess of the limits specified by SEBI (MF) Regulations will be borne by the AMC or by the Trustee or the Sponsor.
